## ABOUT G) CONSULTING

G) Consulting is a leading provider of IT Service and Support for small to mid-sized companies in the Midwest. G) Consulting has gained the reputation for exceeding our client's service expectations. G) Consulting partners with leading software and hardware vendors to provide our clients with time tested solutions. With over 100 years of combined technology experience including; project management, project implementation and LAN/WAN service, you can rest assured that your technology goals will be realized with G) Consulting.

## THE REMOTE INFRASTRUCTURE MONITORING SOLUTION (RIM)

The RIM solution provides support, management and strategic guidance in three areas: PC Management, Server Management and Network Management. G) Consulting will design a technology support plan to meet your specific needs.

## FULL SERVICE IT DEPARTMENT

Technology is a vital aspect of just about every business; it is critical to both the day-to-day operations and the strategic growth of your business. Having a complete IT department with a CTO, Network Manager, Help Desk, and Purchasing Manager is out of reach for most organizations. G) Consulting delivers all of these benefits and more for an affordable monthly fee.

## OUR CLIENTS

Did you know that most companies have very different technology needs and that a non-profit organization has different needs than a financially focused company? Did you know engineering and architectural offices have similar needs? G) Consulting does because we have provided IT consulting and networking services to a wide range of businesses since 1990.

Your business can easily benefit from the vast experience our IT professionals offer. Whether you're a non-profit organization or a small business (1-150 employees) you can benefit from the G) Consulting advantage:

- ✓ Law firm
- ✓ Non-profit organizations
- ✓ Architecture firms
- ✓ Engineering firm / construction company
- ✓ Accounting financial service company
- ✓ Manufacturing company
- ✓ And more

## THE VALUE OF G) CONSULTING'S MANAGED IT SERVICES

Your business can't afford to wait for a disaster to happen and then react to it. You need to know that everything possible is being done to make sure you don't go down in the first place. Your business success depends on your IT infrastructure. G) Consulting's Managed IT Services provide you the unlimited proactive support that not only keeps your network running effectively and efficiently, but it helps you reach your business goals.

While you focus on your core business, G) Consulting provides you with an enterprise-level IT department for less than it would cost you to manage your IT in house. Our "Virtual IT Department" gives small- to mid-sized businesses access to a comprehensive suite of tools and processes to monitor and manage your IT infrastructure. G) Consulting will design and effectively manage your day-to-day IT needs while we provide strategic guidance to make sure you get the most from your IT investments.

## INCREASED PERFORMANCE, RELIABILITY AND SECURITY

The proper infrastructure and ongoing maintenance are vital to ensuring your technology helps to grow your business. Once the foundation of your technology is in place, the focus shifts to increasing employee productivity and efficiency. G) Consulting will work with you to review your business goals and ensure the right technology is in place to allow your business to succeed.

So while you work on growing your business, let us work on keeping your technology running seamlessly. You don't have time to be focused on IT issues – that's our job.
